

Construction Update: Marine Terminal Night Shift

As Cedar LNG progresses with construction, we are committed to sharing updates about our activities with the community. Work at our Marine Terminal is ramping up for the season and we have added a night shift to complement our day shift. Night shift activities will generally include preparations for the following day that can be completed safely and efficiently.

Night Shift

- **When:** May until October 2026. Daily from 6:00 p.m. to 6:00 a.m.
- **Where:** Cedar LNG Marine Terminal Area.
- **What:** Night shift work. All work will comply with noise requirements – no hauling, blasting, or potential high-noise work will take place during the night shift. Work lights will be used in a manner that ensures activities are completed safely while also respecting the local community. We apologize for any inconvenience this may cause and appreciate your understanding as we safely complete our work.

Community Feedback Program

Share feedback, receive answers to questions, and have concerns addressed in a timely way. You can reach out using the method that works best for you.
