Explore a hands-on career as a

Warehouse Technician

JOIN OUR TRAINING PROGRAM TODAY!

A day in the life of a Warehouse Technician

- Receive, store and ship items
- Manage inventory
- Champion a culture of safety
- Support material and equipment tracking and reporting
- Work collaboratively with operators

As we prepare for startup in late 2028, we are looking to hire and train the right people to be part of our team. And that includes careers onshore in the Cedar office.

We are launching an on-the-job training program to build the skills to become a Warehouse Technician and bring those skills back to your home community.

WHERE	On the job training will be offered at a facility near Edmonton, Alberta and then transition to Kitimat in late 2027.
WHEN	Starting in January 2027.
FORMAT	Earn while you learn – learn on the job in real life situations, supported by a team and mentors.
SUPPORTS	Financial supports will be offered to support your placement in the Edmonton area.

If you would like to apply to join our training program, visit **cedarlng.com/careers**

or scan to apply now!

What you can expect

Many roles at Cedar LNG are onboard the Floating LNG vessel. Other roles, like Warehouse Technicians, will be based in our on-shore facilities in Kitimat.

Traditional work schedule. Monday to Friday, 8-hour shifts in Kitimat

Professional development opportunities with room to grow

Competitive wages, with opportunity for increases as you progress

Work as part of a close-knit team where everyone contributes to safety and takes care of each other

We are looking for people who:

- Take safety seriously
- Communicate effectively
- Follow procedures
- Work collaboratively with others

Does this sound like you?
